PROFESSIONAL SUMMARY

Digital Marketing and Lead Generation professional with 1.5+ years of experience in B2B cold email outreach, CRM management, SEO and sales prospecting automation. Achieved a 20% email response rate and a 15% increase in client engagement. Building practical tools in Python and Android (Kotlin) to speed up outreach and reporting.

SKILLS

Lead Generation | B2B Cold Campaigns | Digital Marketing | SEO | CRM (HubSpot, Salesforce) | LinkedIn Sales Navigator | Microsoft Office | Email Campaigns | Data Research and Validation | Client Communication | Objection Handling | Project Coordination | Python | Kotlin, Jetpack Compose | AI Workflows | AI Training |

PROFESSIONAL EXPERIENCE

Contractual Project Head (Employee Management System) | Dev Enterprises | June 2026 – July 2026

- Scoped requirements with the client and guided development of a custom employee management system.
- Coordinated between the client and the development work, and tracked milestones and delivery.

Data Research Executive (Lead Generation) | Sphinx Worldbiz Limited | February 2026 – May 2026

- Set up the groundwork for an automated lead generation workflow connecting Apollo, LinkedIn Sales Navigator, Google Sheets and CRM.
- Researched, collected and validated business data, delivering clean datasets and reports to internal teams.

Digital Marketing Executive | Avian Grove, Noida | June 2025 – January 2026

- Ran outbound B2B email campaigns reaching 50+ prospects per month with a 20% response rate.
- Managed CRM records for leads, follow-ups and conversions to keep communication timely.
- Ran SEO and social content that improved brand visibility on LinkedIn and Google Search.
- Supported brand positioning work that contributed to a 15% increase in client engagement.

Digital Marketing Intern | Avian Grove, Noida | November 2024 – May 2025

- Set up the first CRM and client communication workflows, later scaled in the full-time role.
- Assisted with campaign execution and content coordination.
- Promoted to full-time Digital Marketing Executive.

PROJECTS

Site Auditor, Chrome Extension | Independent

- Built a tool that audits prospect websites for SEO, speed, security and UX issues and generates a summary for personalized cold emails.

Outbound Mailbox Rotation Tracker | Independent

- Built a browser tool that spreads daily email volume across mailboxes with sending limits, protecting sender reputation.

Project Head Researcher-Dissertation Project | University of Surrey

- Wrote the Python codebase for multi-objective optimization and cost analysis of the process.
- Real time simulation of thousands of data fragments and deriving outcomes.

Android Utility App | Independent

- Built an Android app in Kotlin and Jetpack Compose for image conversion, GIF/WebP encoding and PDF-to-image workflows.
